Introduction

The National Society of Black Engineers of South Africa (NSBE SA) is a non-profit and non-racial organization which was established to transform the engineering profession by ensuring full participation of local black engineers in the mainstream economy, wealth creation and distribution for the greater benefit of black communities in South Africa. Our membership base covers all engineering disciplines, students, young graduates, owners of engineering firms, executives and seasoned engineers across the country. The NSBE boasts a membership base of over 2,000 qualified black engineers from across all engineering disciplines.

Purpose – Vision – Mission

Purpose

- VA founded in 1998 UKZN
- Promoting Transformation
- Promoting Science and Technology
- Academic Excellence
- Community Upliftment

Vision

Why Partner with NSBE?

- Leadership, Technical Excellence, Academic Excellence and Mentoring are all key characteristics of how we positively impact the community. Supporting NSBE means that you are working towards building a strong legacy of leaders, innovators and technically skilled citizens that will positively impact our country for generations to come.
- Advancing socio-economic transformation remains our pre-occupation until abject poverty, inequality and unemployment are relegated to history. Sustainable partnership with NSBE will help towards ensuring that the aforementioned economic injustices are addressed.
